

The background features a light blue sky with several white, stylized clouds of various sizes. At the bottom, there is a row of three stylized school buildings in a dark teal color. Each building has a gabled roof, a central entrance, and a grid of windows. The central building has a clock face on its roof. A large, dark teal circle with a white border is positioned in the upper center, containing the main title text.

# WHO SHOULD CONSIDER THESE PLANS?

Small schools and emerging nonprofits often have learning platform needs that call for additional wrap-around services or tools that are not available in the basic Cloud Bridge Plans. But budget restrictions in startup phases may preclude signing on for a full academic package. These intermediate plans offer options that allow your learning environment plans to scale as your mission grows.

# FAQs

## WHAT IS INCLUDED IN THESE PLANS?

- Core Moodle plugins plus your choice of **two** mission-critical, additional Elearning Experts (EE) approved third party plugins. Example: The Moodle Checklist plugin through which a checklist can be created by a teacher (or generated from the activities in a course) and then the students or teachers can mark off each item as they are completed.
- Request one specific additional EE approved theme that can be loaded on the site to allow for greater flexibility in branding and look/feel options.
- Full site admin access including control over user base and number of courses created or categories created
- SSL Certificate: We take security very seriously, so we do require that all sites apply a security certificate to their domains (https connection). There are a number of ways to phase in this requirement, so please discuss the options for SSL certificates for your site with your Elearning Experts account representative.
- URL redirects to client-owned domains included in site setup support.

## HOW MUCH SUPPORT IS AVAILABLE WITH THESE PLANS?

- Ongoing user-related “how to” technical support for full contract included as specified per tier.
- Support for codebase and server environment: 365/24/7 monitoring and maintenance is handled by our expert network and infrastructure team. Software updates, fixes, and upgrades are included as per our standard Service Level Agreement.

## WHAT CAN I USE MY SUPPORT HOURS TO ACCOMPLISH DURING IMPLEMENTATION PHASES?

- Theme help with logo or color-scheme options with included themes.
- Authentication and site access configuration
- Simple PayPal plugin configurations for enrollment in courses
- Site admin orientation to Moodle site layout and basic settings configurations for your specific requirements

## WHAT IF I NEED MORE SUPPORT OR ADDITIONAL SERVICES?

- Additional user support can be purchased separately in blocks of 10 hours at \$900/block.
- See listing of available additional services and the costs for those services below.

# Additional Service Summaries

## SPECIALIZED TECHNICAL CONSULTATION/DEVELOPMENT SUPPORT

Scheduled call with a Subject Matter Expert (SME) in LDAP or CAS/SSO authentication and enrollment strategies, SQL Database and PHP help, help with creating specific queries and reports, etc. is possible at \$150.00/ hour

## STARTUP 360 FOR SCHOOLS AND NONPROFITS

Consult with our instructional design specialists and site administrative team leads regarding planning the organizational aspects of your site: probable enrollment strategies, organization of content on the site, possible e-commerce solutions, possible need for specialized roles or other user management strategies.

- Full audit, program scope and sequence, project plan, and implementation support package for up to 10 hours of contact time = \$900.00 regular price; 20% discount = \$720.00
- À la carte sessions can be scheduled at a rate of \$100/hour; 20% discount = \$80/hr
